WE ARE NOT ASKING YOU FOR A PROXY AND YOU ARE REQUESTED NOT TO SEND US A PROXY.

This Information Statement is first being furnished on or about June 30, 2010 to the holders of record as of the close of business on June 30, 2010 of the common stock of Cetrone Energy Company, a Nevada corporation ("Cetrone Energy").

The Board of Directors of Cetrone Energy and 1 stockholder holding an aggregate of 2,000,000 shares of common stock issued and outstanding as of June 7, 2010, have approved and consented in writing to the actions described below. Such approval and consent constitute the approval and consent of a majority of the total number of shares of outstanding common stock and are sufficient under the Nevada Revised Statutes ("NRS") and Cetrone Energy's Articles of Incorporation and Bylaws to approve the actions. Accordingly, the actions will not be submitted to the other stockholders of Cetrone Energy for a vote, and this Information Statement is being furnished to stockholders to provide them with certain information concerning the action in accordance with the requirements of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and the regulations promulgated thereunder, including Regulation 14C.

GENERAL

Cetrone Energy will pay all costs associated with the distribution of this Information Statement, including the costs of printing and mailing. Cetrone Energy will reimburse brokerage firms and other custodians, nominees and fiduciaries for reasonable expenses incurred by them in sending this Information Statement to the beneficial owners of Cetrone Energy's common stock.

Cetrone Energy will only deliver one Information Statement to multiple security holders sharing an address unless Cetrone Energy has received contrary instructions from one or more of the security holders. Upon written or oral request, Cetrone Energy will promptly deliver a separate copy of this Information Statement and any future annual reports and information statements to any security holder at a shared address to which a single copy of this Information Statement was delivered, or deliver a single copy of this Information Statement and any future annual reports and information statements to any security holder or holders sharing an address to which multiple copies are now delivered. You should direct any such requests to the following address: Cetrone Energy Company, 11010 East Boundary Road, Elk, Washington 99009, Attn: Michael Cetrone, President. Mr. Cetrone may also be reached by telephone at (509) 435-2339.

INFORMATION ON CONSENTING STOCKHOLDER

Pursuant to Cetrone Energy's Bylaws and the Nevada Revised Statutes ("NRS"), a vote by the holders of at least a majority of Cetrone Energy's outstanding capital stock is required to effect the action described herein. Cetrone Energy's Articles of Incorporation does not authorize cumulative voting. As of the record date, Cetrone Energy had 2,252,150 shares of common stock issued and outstanding. The voting power representing not less than 1,126,076 shares of common stock was required to pass any stockholder resolutions. The consenting stockholder was the record and beneficial owner of 2,000,000 shares of common stock, which represented approximately 89% of the issued and outstanding shares of Cetrone Energy's common stock.

Pursuant to Chapter 78.320 of the NRS, the consenting stockholder voted, with the Board of Directors, in favor of the actions described herein in a joint written consent, dated June 7, 2010. No consideration was paid for the consent. The consenting stockholder's name, affiliation with Cetrone Energy, and his beneficial holdings are as follows:

<u>Name</u>	<u>Beneficial Holder and Affiliation</u>	<u>Shares Beneficially Held</u>	<u>Percentage</u>

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth, as of June 7, 2010, certain information regarding the ownership of Cetrone Energy's capital stock by each director and executive officer of Cetrone Energy, each person who is known to Cetrone Energy to be a beneficial owner of more than 5% of any class of Cetrone Energy's voting stock, and by all officers and directors of Cetrone Energy as a group. Unless otherwise indicated below, to Cetrone Energy's knowledge, all persons listed below have sole voting and investing power with respect to their shares of capital stock, except to the extent authority is shared by spouses under applicable community property laws.

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission ("SEC") and generally includes voting or investment power with respect to securities. Shares of common stock subject to options, warrants or convertible securities exercisable or convertible within 60 days of June 7, 2010 are deemed outstanding for computing the percentage of the person or entity holding such options, warrants or convertible securities but are not deemed outstanding for computing the percentage of any other person, and is based on 2,252,150 shares of common stock issued and outstanding on a fully diluted basis, as of June 7, 2010.

CHANGE IN CONTROL

To the knowledge of management, there are no present arrangements or pledges of securities of Cetrone Energy which may result in a change in control of Cetrone Energy.

NOTICE TO STOCKHOLDERS OF ACTION APPROVED BY CONSENTING STOCKHOLDER

The following action was taken based upon the unanimous recommendation of the Board of Directors and the written consent of the consenting stockholder:

I. APPROVAL TO AMEND ARTICLES OF INCORPORATION TO EFFECT A CHANGE OF NAME OF THE COMPANY FROM “CETRONE ENERGY COMPANY” TO “FRESH START PRIVATE MANAGEMENT INC.”

On June 7, 2010, the Board of Directors and the consenting stockholder adopted and approved an amendment to our Articles of Incorporation to effect a change of our name from “Cetrone Energy Company” to “Fresh Start Private Management Inc.” (the “Name Change”). Under Rule 14c-2, promulgated pursuant to the Securities Exchange Act of 1934, as amended (the “Exchange Act”), the Name Change shall be effective twenty (20) days after this Information Statement is mailed to stockholders of Cetrone Energy. We anticipate the effective date to be on or about June 30, 2010.

II. AMENDMENT TO THE ARTICLES OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED COMMON STOCK

On June 7, 2010, the Board of Directors the consenting stockholder adopted and approved a resolution to effect an amendment to our Articles of Incorporation to increase the number of shares of authorized common stock from 50,000,000 to 200,000,000. The par value of each such common stock shall is and shall remain \$0.001 per share. Such amendment is referred to herein as the “Authorized Shares Amendment.”

Currently, Cetrone Energy has 50,000,000 shares of common stock authorized, of which 2,252,150 shares are issued and outstanding. Under Rule 14c-2, promulgated pursuant to the Exchange Act, the Authorized Shares Amendment shall be effective twenty (20) days after this Information Statement is mailed to stockholders of Cetrone Energy, and thereafter, Cetrone Energy will have 200,000,000 shares of shares of common stock authorized for issuance, of which 197,747,850 will be available for issuance.

Any additional issuance of common stock could, under certain circumstances, have the effect of delaying or preventing a change in control of Cetrone Energy by increasing the number of outstanding shares entitled to vote and by increasing the number of votes required to approve a change in control of Cetrone Energy. Shares of common stock could be issued, or rights to purchase such shares could be issued, to render more difficult or discourage an attempt to obtain control of Cetrone Energy by means of a tender offer, proxy contest, merger or otherwise. The ability of the Board of the Directors to issue such additional shares of common stock could discourage an attempt by a party to acquire control of Cetrone Energy by tender offer or other means. Such issuances could therefore deprive stockholders of benefits that could result from such an attempt, such as the realization of a premium over the market price that such an attempt could cause. Moreover, the issuance of such additional shares of common stock to persons interests aligned with that of the Board of Directors could make it more difficult to remove incumbent managers and directors from office even if such change were to be favorable to stockholders generally.

While the increase in the number of shares of common stock authorized may have anti-takeover ramifications, the Board of Directors believes that the financial flexibility offered by the amendment outweighs any disadvantages. To the extent that the increase in the number of shares of common stock authorized may have anti-takeover effects, the amendment may encourage persons seeking to acquire Cetrone Energy to negotiate directly with the Board of Directors, enabling the Board of Directors to consider a proposed transaction in a manner that best serves the stockholders’ interests.

The Board believes that it is advisable and in the best interests of Cetrone Energy to have available additional authorized but unissued shares of common stock in an amount adequate to provide for Cetrone Energy's future needs. The unissued shares of common stock will be available for issuance from time to time as may be deemed advisable or required for various purposes, including the issuance of shares in connection with financing or acquisition transactions. Cetrone Energy has no present plans or commitments for the issuance or use of the proposed additional shares of common stock in connection with any financing.

The Authorized Shares Amendment is not intended to have any anti-takeover effect and is not part of any series of anti-takeover measures contained in any debt instruments or the Articles of Incorporation or the Bylaws of Cetrone Energy in effect on the date of this Information Statement. However, Cetrone Energy stockholders should note that the availability of additional authorized and unissued shares of common stock could make any attempt to gain control of Cetrone Energy or the Board of Directors more difficult or time consuming and that the availability of additional authorized and unissued shares might make it more difficult to remove management. Cetrone Energy is not aware of any proposed attempt to take over Cetrone Energy or of any attempt to acquire a large block of Cetrone Energy's stock. Cetrone Energy has no present intention to use the increased number of authorized common stock for anti-takeover purposes.

There are currently no plans, arrangements, commitments or understandings for the issuance of shares of common stock.

III. AMENDMENT ARTICLES OF INCORPORATION TO EFFECT A FORWARD STOCK SPLIT AT A RATIO OF TWO HUNDRED-FOR-ONE

On June 7, 2010, the Board of Directors the consenting stockholder adopted and approved a resolution to effect an amendment to our Articles of Incorporation to effect a forward split of all issued and outstanding shares of common stock, at a ratio of two hundred-for-one (200:1) (the "Forward Stock Split"). Under Rule 14c-2, promulgated pursuant to the Exchange Act, the Forward Stock Split shall be effective twenty (20) days after this Information Statement is mailed to stockholders of Cetrone Energy.

On June 14, 2010, Michael Cetrone, our President, a Director and 89% stockholder, redeemed 1,775,000 shares of common stock with the Company, leaving him a holder of 250,000 shares of common stock and the Company with 502,150 shares of common stock issued and outstanding. After the stock redemption, Mr. Cetrone is the holder of approximately 49.7% holder of all issued and outstanding shares of common stock of the Company.

The Board of Directors also reserves the right, notwithstanding stockholder approval and without further action by stockholders, to not proceed with the Forward Stock Split if the Board of Directors, in its sole discretion, determines that the Forward Stock Split is no longer in our best interests and that of our stockholders. The Board of Directors may consider a variety of factors in determining whether or not to implement the Forward Stock Split, including, but not limited to, overall trends in the stock market, recent changes and anticipated trends in the per share market price of the common stock, business and transactional developments, and our actual and projected financial performance.

Though the Forward Stock Split will not change the number of authorized shares of common stock, the Board of Directors and the consenting stockholder have also approved a resolution to effect an amendment to our Articles of Incorporation to increase the number of authorized shares of common stock from 50,000,000 to 200,000,000, as discussed in more detail above. Except for any changes as a result of the treatment of fractional shares, each stockholder of Cetrone Energy will hold the same percentage of common stock outstanding immediately following the Forward Stock Split as such stockholder held immediately prior to the split.

A table illustrating the effect Forward Stock Split, the Authorized Shares Amendment and the redemption of the 1,750,000 shares of common stock by Michael Cetrone with the Company is as follows:

	Number of shares of common stock issued and outstanding	Number of shares of common stock authorized in Certificate of Incorporation	Number of shares of common stock authorized and reserved for issuance	Number of shares of common stock authorized but unreserved for issuance
Before Forward Stock Split and Authorized Shares Amendment	502,150	50,000,000	-0-	49,497,850
After Forward Stock Split and Authorized Shares Amendment	100,430,000	200,000,000	-0-	99,570,000

Purpose

The Board of Directors believed that it was in the best interests of Cetrone Energy to implement the Forward Stock Split on the basis that the low number of issued and outstanding shares of common stock of Cetrone Energy would likely not appeal to brokerage firms and that when trading, the current projected per share price level of our common stock will reduce the effective marketability of our common stock because of the reluctance of many brokerage firms to recommend stock to their clients or to act as market-makers for issuers which do not have a sufficient number of shares of common stock issued and outstanding.

Certain Risks Associated With the Forward Stock Split

There can be no assurance that the total projected market capitalization of Cetrone Energy’s common stock after the proposed Forward Stock Split will be equal to or greater than the total projected market capitalization before the proposed forward stock split or that the per share price of Cetrone Energy’s common stock following the forward stock split will either exceed or remain higher than the current anticipated per share.

There can be no assurance that the market price per new share of Cetrone Energy common stock (the “New Shares”) after the Forward Stock Split will rise or remain constant in proportion to the reduction in the number of old shares of Cetrone Energy common stock (the “Old Shares”) outstanding before the forward stock split.

Accordingly, the total market capitalization of Cetrone Energy’s common stock after the proposed forward stock split may be lower than the total market capitalization before the proposed forward stock split and, in the future, the market price of Cetrone Energy’s common stock following the forward stock split may not exceed or remain higher than the market price prior to the proposed forward stock split. In many cases, the total market capitalization of a company following a forward stock split is lower than the total market capitalization before the forward stock split.

There can be no assurance that the forward stock split will result in a per share price that will attract investors.

A decline in the market price for Cetrone Energy’s common stock after the forward stock split may result in a greater percentage decline than would occur in the absence of a forward stock split, and the liquidity of Cetrone Energy’s common stock could be adversely affected following a forward stock split.

The market price of Cetrone Energy's common stock will also be based on Cetrone Energy's performance and other factors, some of which are unrelated to the number of shares outstanding. If the forward stock split is effected and the market price of Cetrone Energy's common stock declines, the percentage decline as an absolute number and as a percentage of Cetrone Energy's overall market capitalization may be greater than would occur in the absence of a forward stock split. In many cases, both the total market capitalization of a company and the market price of a share of such company's common stock following a forward stock split are lower than they were before the forward stock split. Furthermore, the liquidity of Cetrone Energy's common stock could be adversely affected by the reduced number of shares that would be outstanding after the forward stock split.

Cetrone Energy's common stock trades as a "penny stock" classification which limits the liquidity for Cetrone Energy's common stock.

Cetrone Energy's stock is subject to "penny stock" rules as defined in Exchange Act Rule 3a51-1. The SEC has adopted rules that regulate broker-dealer practices in connection with transactions in penny stocks. Cetrone Energy's common stock is subject to these penny stock rules. Transaction costs associated with purchases and sales of penny stocks are likely to be higher than those for other securities. Penny stocks generally are equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges, provided that current price and volume information with respect to transactions in such securities is provided by the exchange or system).

As a result, all brokers or dealers involved in a transaction in which Cetrone Energy's shares are sold to any buyer, other than an established customer or "accredited investor," must make a special written determination. These Exchange Act rules may limit the ability or willingness of brokers and other market participants to make a market in our shares and may limit the ability of Cetrone Energy's stockholders to sell in the secondary market, through brokers, dealers or otherwise. Cetrone Energy also understands that many brokerage firms will discourage their customers from trading in shares falling within the "penny stock" definition due to the added regulatory and disclosure burdens imposed by these Exchange Act rules. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the common shares in the United States and stockholders may find it more difficult to sell their shares. An orderly market is not assured or implied as to Cetrone Energy's common stock. Nor are there any assurances as to the existence of market makers or broker/dealers for Cetrone Energy's common stock.

Principal Effects of the Forward Stock Split

In addition to those risk factors noted above, the Forward Stock Split will have the following effects:

General Corporate Change – (i) one (1) Old Share owned by a stockholder would be exchanged for two hundred (200) New Shares and (ii) the number of shares of Cetrone Energy's common stock issued and outstanding will be increased proportionately based on the Forward Stock Split.

If approved and effected, the forward stock split will be effected simultaneously for all of Cetrone Energy's common stock. While the intent is for the proposed forward split to affect all of Cetrone Energy's stockholders uniformly, the process of rounding up when any of Cetrone Energy's stockholders own a fractional share will result in a non-material change in each stockholder's percentage ownership interest in Cetrone Energy.

The Forward Stock Split does not materially affect the proportionate equity interest in Cetrone Energy of any holder of common stock or the relative rights, preferences, privileges or priorities of any such stockholder.

Fractional Shares - Any fractional shares of common stock resulting from the forward split will "round up" to the nearest whole number. No cash will be paid to any holders of fractional interests in Cetrone Energy.

Authorized Shares - The forward split will not change the number of authorized shares of common stock of Cetrone Energy, as states in Cetrone Energy's Articles of Incorporation.

Accounting Matters - The Forward Stock Split will not affect the par value of Cetrone Energy's common stock. As a result, as of the effective time of the Forward Stock Split, the stated capital on Cetrone Energy's balance sheet attributable to Cetrone Energy's common stock will be increased proportionately based on the Forward Stock Split ratio, and the additional paid-in capital account will be credited with the amount by which the stated capital is increased. The per share net income or loss and net book value of Cetrone Energy's common stock will be restated because there will be a greater number shares of Cetrone Energy's common stock outstanding.

Procedure for Effecting the Forward Stock Split and Exchange of Stock Certificates

Upon effectiveness of the Forward Stock Split, each outstanding share of Cetrone Energy will automatically be converted on the effective date at the applicable forward stock split ratio. It will not be necessary for stockholders of Cetrone Energy to exchange their existing stock certificates.

Certain of our registered holders of common stock may hold some or all of their shares electronically in book-entry form with our transfer agent. These stockholders do not have stock certificates evidencing their ownership of our common stock. They are, however, provided with a statement reflecting the number of shares registered in their accounts. If a stockholder holds registered shares in book-entry form with our transfer agent, no action needs to be taken to receive post-reverse stock split shares or cash payment in lieu of any fractional share interest, if applicable. If a stockholder is entitled to post-Forward Stock Split shares, a transaction statement will automatically be sent to the stockholder's address of record indicating the number of shares of common stock held following the reverse stock split.

Federal Income Tax Consequences of the Forward Stock Split

The following is a summary of certain material federal income tax consequences of the Forward Stock Split. It does not purport to be a complete discussion of all of the possible federal income tax consequences of the Forward Stock Split and is included for general information only. Further, it does not address any state, local or foreign income or other tax consequences. Also, it does not address the tax consequences to holders that are subject to special tax rules, such as banks, insurance companies, regulated investment companies, personal holding companies, foreign entities, non-resident alien individuals, broker-dealers and tax-exempt entities. The discussion is based on the provisions of the United States federal income tax law as of the date hereof, which is subject to change retroactively as well as prospectively. This summary also assumes that the Old Shares were, and the New Shares will be, held as a "capital asset," as defined in the Internal Revenue Code of 1986, as amended (i.e., generally, property held for investment). The tax treatment of a stockholder may vary depending upon the particular facts and circumstances of such stockholder. Each stockholder is urged to consult with such stockholder's own tax advisor with respect to the tax consequences of the forward stock split.

No gain or loss should be recognized by a stockholder upon such stockholder's exchange of Old Shares for New Shares pursuant to the forward stock split. The aggregate tax basis of the New Shares received in the Forward Stock Split (including any fraction of a New Share deemed to have been received) will be the same as the stockholder's aggregate tax basis in the Old Shares exchanged therefor. The stockholder's holding period for the New Shares will include the period during which the stockholder held the Old Shares surrendered in the forward stock split.

TO ENSURE COMPLIANCE WITH TREASURY DEPARTMENT CIRCULAR 230, STOCKHOLDERS ARE HEREBY NOTIFIED THAT: (A) ANY DISCUSSION OF FEDERAL TAX ISSUES IN THIS INFORMATION STATEMENT IS NOT INTENDED OR WRITTEN TO BE RELIED UPON, AND CANNOT BE RELIED UPON BY STOCKHOLDERS FOR THE PURPOSE OF AVOIDING PENALTIES THAT MAY BE IMPOSED ON STOCKHOLDERS UNDER THE INTERNAL REVENUE CODE; (B) SUCH DISCUSSION IS INCLUDED HEREIN BY THE COMPANY IN CONNECTION WITH THE PROMOTION OR MARKETING (WITHIN THE MEANING OF CIRCULAR 230) BY THE COMPANY OF THE TRANSACTIONS OR MATTERS ADDRESSED HEREIN; AND (C) STOCKHOLDERS SHOULD SEEK ADVICE BASED ON THEIR PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISOR.

Cetrone Energy's view regarding the tax consequences of the forward stock split is not binding on the Internal Revenue Service or the courts. Accordingly, each stockholder should consult with his or her own tax advisor with respect to all of the potential tax consequences to him or her of the forward stock split.
